Notice on the Implementation of the
Point-Based Selection System for
Foreign Workers

February 2024

Notice on the Implementation of the Point-Based Selection System for Foreign Workers

The Ministry of Employment and Labor of the Republic of Korea and the Ministry of Labor of Sri Lanka jointly announce the **plan to implement the Employment Permit System and Point-Based Selection System for Foreign Workers** for 2024.

The Point-Based Selection System is designed to recruit foreign workers based on a **comprehensive assessment of individual capabilities including Korean proficiency, physical fitness**(those with color blindness and color weakness are ineligible, and those with herniated discs, amputated fingers, etc. may be excluded from final consideration based on the results of the Job Capacity Assessment), **skills, and job capacity**.

Candidates are screened down to **1.1 times the number of the recruitment quota** through **the 1st round** [Test of Proficiency in Korean (EPS-TOPIK) and assessing color vision deficiency] **based on their test scores among those surpassing the lowest score limits for different industries**.

Those who passed **the 1st round** are then screened through **the 2nd round** (Skills Test and Job Capacity Assessment). The final successful candidates are selected based on the combined scores of the 1st and 2nd rounds.

Those who pass the 1st round **must undergo the 2nd round** to become eligible for final consideration. **The Job Capacity Assessment** is performed only for those

who have submitted the required documents, including **the confirmation of training experiences (or the equivalent of a junior college diploma or higher), certificates of national qualifications, and confirmation of work experiences.**

As those with color vision deficiency (**color blindness and color weakness**) are **ineligible, individual applicants must check their color vision status** prior to the application for the 1st round of screening. Those who have passed the 1st round **may also be excluded from final consideration if assessed to be unqualified for specific industries by the judges in the 2nd round due to other physical conditions.**

February 2024

Supervised by: Ministry of Employment and Labor of the Republic of Korea

Executed by: Human Resources Development Service of Korea

Supported by: Ministry of Labor of Sri Lanka and

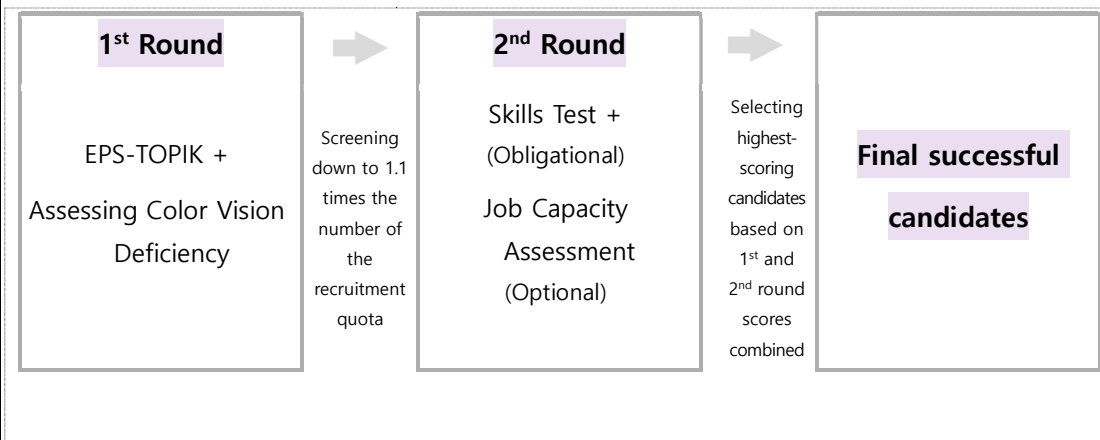

Sri Lanka Bureau of Foreign Employment

Overview of the Point-Based Selection System

▮ Objective

- To help employers screen and recruit competent foreign workers by providing a wide range of information such as EPS-TOPIK and Skills Test results, training history (academic background), qualifications, and work experiences
- Even if the applicant's Korean proficiency is low, opportunities to be hired in Korea will be expanded if the applicant is assessed to be a diligent worker with outstanding skills and sufficient work experiences.

▮ Procedures

▮ Composition and Score Allocation

- Composition
 - (1st Round) 1st Round consists of EPS-TOPIK and assessing color vision deficiency. EPS-TOPIK consisting of 40 multiple-choice questions, with 20 questions each for reading and listening (50 minutes)
 - (2nd Round) The Skills Test consists of physical fitness testing (hand strength and back strength), interviewing, and basic skills testing. The Job Capacity Assessment screens through the submitted documents for those with work experiences in relevant fields, those with training experiences or the equivalent of a junior college diploma or higher (for manufacturing, shipbuilding, only), and those with national qualifications among candidates selected through the 1st round of screening.
- Score allocation and pass-fail criteria
 - (1st Round) To select highest-scoring applicants among those surpassing the lowest score limit

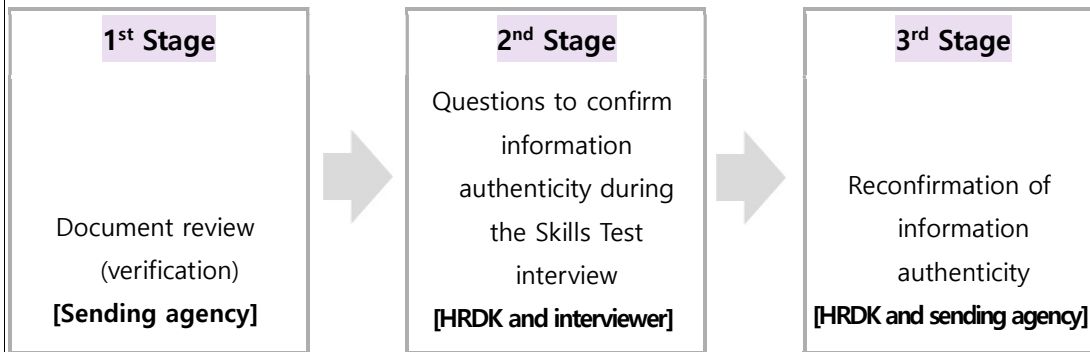

for each industry to 1.1 times the number of the recruitment quota (including ties)

- (2nd Round) To screen out those who score less than 60% of the perfect score in the Skills Test

| Industry | Score | 1 st Round | 2 nd Round | Job Capacity Assessment (additional points) | | | |
|---------------|-------|-----------------------|-----------------------|---|------------------|------------------------------|----------------|
| | | | | Total | Work experiences | Training/Academic background | Qualifications |
| manufacturing | 200 | 100 | 100 | 5 | 3 | 1 | 1 |
| Shipbuilding | 200 | 100 | 100 | 10 | 5 | 3 | 2 |
| Others | 200 | 90 | 110 | 5 | 3 | 1 | 1 |

⌈ **Penalties for Submission of False Documents**

- If any submitted documents are proven to be false, the test results will be nullified. The applicant will also be prohibited from applying to the Employment Permit System for the following four years and be subject to legal action to be taken in consultation with the sending agency.

IV Notes

1. Those with color blindness and color weakness are ineligible. Those with herniated discs, amputated fingers, etc., will be assessed in the 2nd round of screening for job capacity and excluded from final consideration if deemed incapable of performing job tasks.

2. Smart phones, smart watches, Bluetooth earphones, and other devices

that may support cheating cannot be brought into the test venue. **The possession or use of telecommunications devices on site will be considered a fraudulent act.**

3. If the applicant is found to have engaged in a fraudulent act or have submitted **forged documents for the Job Capacity Assessment**, the applicant's test results will be nullified, and the applicant will be prohibited from applying to the Employment Permit System for **the following four years**.
4. If the information (especially the English name and date of birth) included in the EPS-TOPIK application form is **inconsistent with that on the passport**, the respective applicant, even if the applicant passes the screening rounds, will not be allowed to be included in the job seekers' roster or **enter Korea**.
5. The Certificate of Work Experiences (or Confirmation of Factual Grounds of Work Experiences) will not be recognized as evidence if the name, contact information, signature, and other important items of personal information of the issuer/surety are omitted (to be nullified).

- ◆ (Job Seekers' Roster) Final successful candidates are qualified to be included in the job seekers' roster, but this does not guarantee their employment in Korea.
- ◆ (Medical Checkup) Those restricted from employment in Korea (failure to pass the medical checkup criteria, history of illegal stay in Korea, etc.) are not eligible to be selected as job seekers.
- ◆ (Drug Testing) Those who test positive for drugs after entry may be returned to their countries.
- ◆ (Application Eligibility) Those who have stayed in Korea for five years or

longer on an E-9 or E-10 visa are not eligible for application to EPS-TOPIK.

- ◆ (Fraudulent Acts) Measures to detect and punish fraudulent applicants and illegal proxies are being reinforced. Those who gain employment in Korea through fraudulent acts are subject to legal actions by the law enforcement authorities.
